EIGHTEENTH ANNUAL LECTURE COURSE BEGINS OCTOBER 16th, 1902.

LECTURES IN DENTAL DEPARTMENT BEGIN AT THE SAME TIME.

INSTRUCTION consists of graded courses through four terms of eight months each, October to June, of Clinical and Didactic lectures, and recitations, with practical work in laboratories and dispensary, treatment of out-patients, careful training in performance of surgical operations under direction of clinical and hospital staff.

THE COLLEGE DISPENSARY furnishes over six thousand cases annually in every department of surgery and medicine.

THE COUNTY HOSPITAL has 150 beds, and yields all the clinical material which can be utilized.

THE CHEMICAL AND ANATOMICAL LABORATORIES AND THE SURGICAL AND GYNECOLOGICAL OPERATING ROOMS are equipped with all the best modern appliances.

THE HISTOLOGICAL, PATHOLOGICAL, BACTERIOLOGICAL AND PHYSIOLOGICAL LABORATORIES are located in the new Hendryx Laboratory Building, and are perfectly equipped.

REQUIREMENTS FOR ADMISSION.—The student must pass a matriculation examination unless he is a graduate of some University, College, High School or Academy, or holds first grade teachers' certificate. Students who come from any recognized Medical College will be allowed the corresponding time on credentials, or passing examination, as the Faculty may decide.

New York Polyclinic Medical School and Hospital

Chartered by the University of the State of New York. The oldest Post-Graduate School in America. Organized in 1881. Opened in 1882.

THE NEW YORK POLYCLINIC is a school for teaching graduates the most recent methods of diagnosis and treatment in every department of medicine. The clinical material is abundant and the Hospital wards adjoin the lecture rooms. Since the fire in 1896 a new building has been erected and thoroughly equipped, and the Institution is now prepared to offer better facilities than ever. Students may enter at any time.

Plan Advocated by the NATIONAL PHARMACY COMPANY for Establishing and Maintaining Standards

The plan advocated by the National Pharmacy Company includes the return to pharmacopœial standards by physicians, pharmacists and manufacturers, and the establishment of a National Bureau of Materia Medica with which the medical and pharmaceutical professions, and the manufacturing houses, may voluntarily co-operate in establishing and maintaining the standards of the United States Pharmacopœia.

Standardization as Applied by the National Pharmacy Company

The National Pharmacy Company, in its work of standardization, will comply strictly with the United States Pharmacopœia, and furnish preparations under pharmacopœial names which correspond literally with that authority. The analytical department will devote itself to the chemical assay of drugs, and the standardization of preparations; and, when methods of physiologic standardization are determined and recognized by the pharmacopœia, they will be adopted and put into use.

Reasons for Specifying the National Pharmacy Company Brand

As the National Pharmacy Company brand of pharmaceutical products is prepared with great care from carefully selected material, and as the plan of the National Pharmacy Company is certainly in the line of professional and scientific advancement, the medical and pharmaceutical professions are respectfully requested to specify the brand of the National Pharmacy Company, by writing the initials "N. P. Co." after the name of the products, or by using the word-marks in specifying the word-mark preparations appearing in its Manual.

The "Manual and Dose Book" of the National Pharmacy Company is convenient for reference. Have you received a copy?
